

# ONE CAMPUS + PLUS

## DEVELOPMENT CAMPAIGN

Delivering an extra level of benefits for all  
those who study, work and play here

[onecampusplus.co.uk](http://onecampusplus.co.uk)

# +PASSION

We want to create an unparalleled campus where pupils are encouraged to explore new pursuits and find the confidence to develop their talents. The journey of discovery they begin here, will shape collaborative experiences and individual passions that last a lifetime.

## ENERGY THAT TAKES YOU PLACES

The One Campus Plus Campaign is driven by our ambition to honour the energy and vision of those who have gone before us, with a single, stunning campus for our future school community.

Our Schools have grown and thrived as a result of the vision, integrity and sheer determination of those who have travelled the road before us. Their grasp of what made education exceptional inspired bold ideas, based on personal conviction and a readiness to shape each School's future. One Campus Plus resonates with the same sense of historic endeavour and sets out an opportunity to strengthen the extraordinary partnerships for learning and leisure on which our pupils thrive.

We invite you to share this passion for educational excellence, collaboration and collective endeavour. As high performing separate schools, we have an unmissable opportunity to combine our strengths and create a unique, flagship campus that's equipped to serve all who come here.

## SEEDS THAT FLOURISH

One Campus Plus is a campaign to raise the extra funding needed so that all of our pupils can unlock their potential. Whether their abilities align with academic, sporting or artistic pursuits, we want to continue to nurture a fertile landscape for learning where everyone flourishes.

With this in mind, our aim is to enhance the new campus with the following extra facilities, fittings and features:

1. **A new Sports Pavilion** with views across the playing fields, the new 3G pitch and the existing all-weather pitches. This building would be used by all pupils, and provide modern changing facilities for our home and visiting teams.

We have always planned to refurbish the current outfield pavilion, and one day to completely rebuild it. However, with support through the One Campus Plus campaign, we would be able to bring forward the plans for a new Pavilion as part of the current building programme, alleviating future disruption and utilising the funds earmarked for the refurbishment to help meet the costs of the new build.

2. **Undercover sports facilities** increased to 7,500m<sup>2</sup>, by constructing a Canopy to cover our new tennis and netball courts. This will improve access and wider use of the sports facilities for all, including our junior pupils.
3. **A surround area to the planned 3G pitch**, including pitch-side dugouts and facilities.
4. **An additional AstroTurf pitch** to further improve the access to sport for all pupils, all year round.
5. **Enhancements to the new Prep School play space** to make it an exceptional communal environment for our younger pupils.
6. **Contemporary furniture and fittings**, in particular for the world-class Shared Sixth Form Centre and Music School. We have an opportunity to style these new spaces with state-of-the-art IT and furnishings that suit the varied activities they will support.
7. **Planting and landscaping** in external areas to enhance the established campus and create plenty of tranquil, themed green places and attractive courtyards.
8. **Specially commissioned artwork** to inspire our students and reflect the identities of our schools, celebrating their unique relationship based on shared values.

# +POTENTIAL

We know how important it is for young people to take root in a rich and stimulating landscape where they can thrive. Increasing the opportunities for personal achievement, inside and outside the classroom, is the goal of One Campus Plus.

## STEPS THAT SHAPE THE FUTURE

Now that the £41.25 million building programme is underway, it is clear that we have an opportunity to create a truly exceptional campus for our pupils and the wider Warwick community; a campus that not only provides a new home for King's High, but also has the capacity to deliver an extra level of benefits. An additional £4 million is needed to fully maximise the potential of the new site and ensure that all the new buildings, walkways and green spaces are finished to our highest aspirations.

As a Foundation, we also recognise our responsibility to ensure that the King's High that was, is very much a part of the fabric and feeling of the new building's classrooms, cloisters and courtyards. In making the transition, as part of One Campus Plus we plan to reflect the School's unique heritage by:

- Creating a new version of the King's High story, similar to the one currently on display in the Octagon building and prominently featured in one of the new School's social spaces.
- Commissioning an appropriate artistic tribute that recognises the important place of Landor House in the School's history.

- Transforming the iconic Blue Door into a sympathetic design feature within the new site.

As we prepare to launch the One Campus Plus campaign, we invite you to be part of our next generation of givers and help us to ensure that the Project we have begun, is guaranteed to be the very best it can be.

## +P PROGRESS

For centuries, the schools that make up the Warwick Independent Schools Foundation have sought to meet the changing needs of the communities they serve. From September 2019, King's High will be leading the next major step in our development by joining Warwick School and Warwick Preparatory School on the Myton Road campus.

# +PERFORM

Producing our best when it matters most is something we all love to experience or witness. Delivering superb facilities to showcase those moments and offer a springboard for talent, is the driving force of One Campus Plus.

## FOCUS THAT FLOWS

Our Schools have always understood the value of aspirational achievement, which consistently underpins our academic results and pupils' vast extra-curricular pursuits. The encouragement to aim high, with a sense of vision and humility expresses itself in our Schools' anthems, mottos and guiding principles – and it also captures the sight-raising spirit of One Campus Plus.

To ensure that our pupils continue to have their pick of university places and enjoy fulfilling experiences that stretch and challenge them in different ways, One Campus Plus is focused on creating facilities that are fitted-out to the highest specification.

A photograph of two young girls in school uniforms, one in a blue and white striped dress and the other in a purple dress, clapping their hands. They are smiling and looking at each other. The background is a blurred schoolyard with other children and a building.

# +PLAY

Our vision is to create a campus where leisure and learning, pleasure and effort, sit side by side. In designing a space that stimulates the senses and invites imaginations to grow, we believe all our pupils will benefit.

## SPACE THAT FEEDS IMAGINATION

The opportunity to express ourselves through creative play, is something we appreciate at any age. Having the space to explore games that depend on imagination, freedom and connectivity with others, is just as important as having access to state-of-the-art classrooms or well-designed study areas.

One Campus Plus recognises the need for dedicated places in which our pupils can learn and develop through play. It includes several enhancements to the new Prep School play space, making it an exceptional environment for encouraging strong relationships through social and physical activity.

## BENEFITS THAT GO BEYOND THE BRIEF

The benefits of bringing the Foundation family of Schools together are extensive. They represent our commitment to enhancing the educational experience of all our pupils and generating positive outcomes for the wider Warwick community.

The building project includes:

- The new King's High educational buildings, providing a stunning new home for single-sex teaching and extensive extra-curricular collaboration. The new school will also include a dedicated Innovation Centre.
- A new Sixth Form Centre for King's High and Warwick School, where teaching remains separate, but curriculum enrichment and social activities can be shared.
- A purpose-built, high-tech Music School for King's High and Warwick Preparatory School, including practice rooms and performance spaces.
- Improvements to the Bridge Sports Centre, grass pitches and nearby landscaping.
- 3G pitch and netball / tennis courts.
- A new, purpose-built play space for the Prep School.
- Increased parking facilities and enhanced traffic management.

## +PROVISION

One Campus Plus is all about providing an extra level of benefits that promise an outstanding experience for all those who come here. From classrooms to courtyards, concert stages to clubhouses, we have a unique opportunity to make these facilities the very best they can be.

## THE PLUS FACTOR

The £41.25 million building programme to create a single, outstanding campus for our family of schools is the largest capital investment that the Foundation has made in new facilities. One Campus Plus is a campaign to raise a further £4 million, enabling us to maximise the potential of the new site and ensure that the project delivers our highest aspirations for a truly exceptional environment in which to learn, work and play.
