CREATING A HUB FOR THE PLAYING FIELDS

CHANGING ROOMS AND PATIO AREA

We hope to have four state of the art changing rooms for our girls and boys. These changing rooms will provide a convenient place to get ready for PE in close proximity to the facilities that they will be using. Multiple changing facilities will mean a faster turnaround between lessons and more efficient use of teaching time.

The changing rooms will of course be used by all for matches across all sports and will provide a great place for team talks.

Your gift of **£50,000** will be dedicated to one of these changing spaces within the Pavilion, to associate your support with sport at the Foundation. You will be invited to dedicate your gift in your name of choice and to have this acknowledged in the form of a specially designed, commemorative plaque.

Alternatively, you may wish to direct your gift to another available space outside the Pavilion. We plan to have a paved patio area on the ground floor, which will be an excellent place to have a BBQ during the summer term, a really social space to enjoy company as well as support the children representing the school or their local club.

A ROLL OF HONOUR

A special form of recognition will be displayed on the ground floor of the pavilion to record the details of those who have enabled this facility to be built.

The possibilities for the new pavilion and sports facilities on campus are endless. But, realising our vision of a superbly designed facility that services all those stepping onto the pitches or cheering from the side-lines will depend on philanthropic investment at all levels.

Our aim is to establish a very special form of recognition through a creative or artistic feature within the new pavilion. Pupils, teachers and parents will be invited to be part of this team - and as a giver, you will have the option to have your name included in the commemorative feature.

THE PLUS FACTOR

The £41.25 million building programme to create a single, outstanding campus for our family of schools is the largest capital investment that the Foundation has made in new facilities. One Campus Plus is a campaign to raise a further £4 million, enabling us to maximise the potential of the new site and ensure that the project delivers our highest aspirations for a truly exceptional environment in which to learn, work and play.

ENERGY THAT TAKES YOU PLACES

We want to create an unparalleled campus where pupils are encouraged to explore new pursuits and find the confidence to develop their talents. The journey of discovery they begin here, will shape collaborative experiences and individual passions that last a lifetime.
